

**BANDVULC**

# GRIPMASTER

Master any environment with Bandvulc GRIPMASTER tyres. Outstanding reliability whatever the challenge.

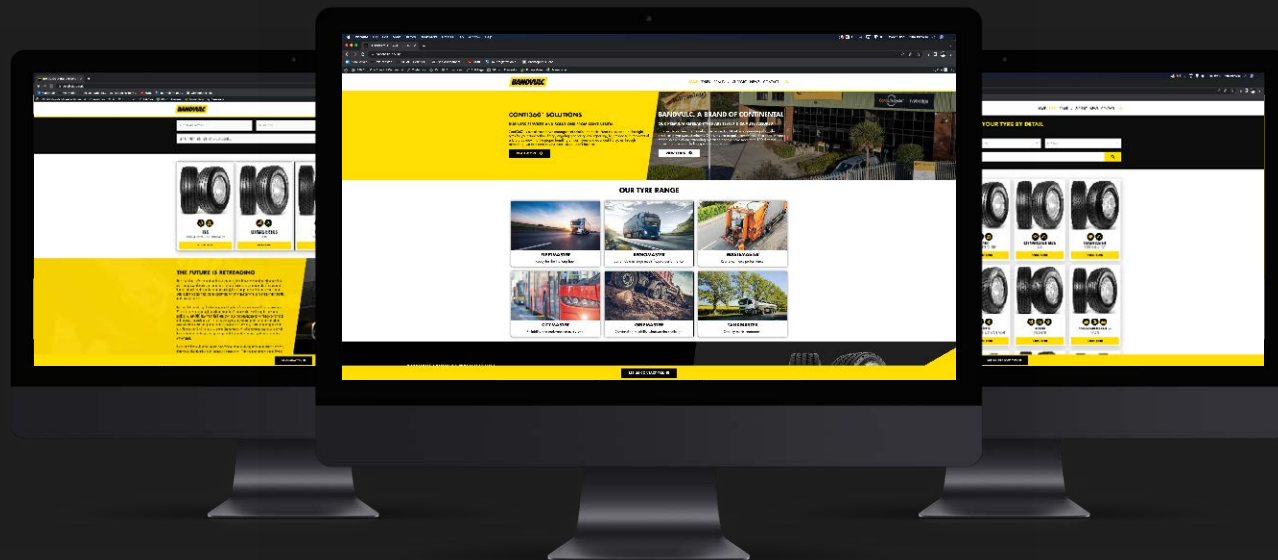

**ENGINEERED FOR OFF-ROAD  
ENDURANCE AND ON-ROAD  
PERFORMANCE**

# MORE PERFORMANCE, WHATEVER THE CHALLENGE

Bandvulc's range of on and off-road construction tyres includes specialist features designed for excellent handling and reliable performance on road, paired with a robust structure and tough grip tread designs to tackle off-road applications. Manufactured with Bandvulc's bespoke high polymer rubber compound the tyres resist damage, provide superior grip and keep performing from quarry to road, journey after journey.

# BANDVULC ARMORBAND™

## KEY FEATURE ARMORBAND™

ARMORBAND™ technology provides an additional safety barrier against kerbing and sidewall damage.

**TOUGH GRIP**  
The tread design is engineered to provide extra grip to handle adverse surfaces and extreme conditions.

**STONE EJECTION**  
features within the tread grooves prevent stone trapping and drills.

# BIG-D

**11R22.5 | 295/80R22.5 | 315/80R22.5**

A high performing, resilient drive tyre to suit aggressive applications. The **BIG D** features extra deep tread for increased mileage and traction, a bespoke tread design to suit both hard and soft terrain whilst improving resistance to irregular wear and includes Bandvulc's ARMORBAND™ sidewall protection feature.

Tyre Size	11R22.5	295/80R22.5	315/80R22.5
Tread Pattern	BIG D	BIG D	BIG D
Load Index	148/145	152/148	156/150
Speed Symbol	J	J	J
Speed Km/h	100	100	100
Recommended Rim	7.50	8.25	9.00
Fitment	Drive	Drive	Drive
Max inflation Pressure:			
Bar	8.5	8.5	8.5
PSI	123	123	123
Features	AB, TG, SE	AB, TG, SE	AB, TG, SE

# GRIPMASTER BRAND

**HIGH POLYMER**  
The high polymer rubber compound provides excellent resistance to harsh driving conditions and reduces the frequency and severity of cuts and tears.

**KEY FEATURE  
TOUGH GRIP**

The tread design is engineered to provide extra grip to handle adverse surfaces and extreme conditions.

## BDG5

295/80R22.5 | 315/70R22.5 | 315/80R22.5

Tread Pattern	BDG5	BDG5	BDG5
Load Index	152/148	154/150	156/150
Speed Symbol	K	K	K
Speed Km/h	110	110	110
Recommended Rim	8.25	9.00	9.00
Fitment	Drive	Drive	Drive
Max inflation Pressure:			
Bar	8.5	9.0	8.5
PSI	123	131	123
KPa	850	900	850
Features	TG, HP	TG, HP	TG, HP

# GRIPMASTER BRAND

### TOUGH TREAD

The toughness of the tread provides increased resistance to cuts, chipping and chunking resulting in a higher removal mileage thanks to its great durability.

### KEY FEATURE TOUGH GRIP

The tread design is engineered to provide extra grip to handle adverse surfaces and extreme conditions.

# BTG5

385/65R22.5

Tyre Size	<b>385/65R22.5</b>
Tread Pattern	BTG5
Load Index	160
Speed Symbol	J
Speed Km/h	100
Recommended Rim	11.75
Fitment	Trailer
Max inflation Pressure:	
Bar	9.0
PSI	131

Features	TG, TT

# ENGINEERED FOR OFF-ROAD ENDURANCE AND ON-ROAD PERFORMANCE

Bandvulc's range of on and off-road construction tyres includes specialist features designed for excellent handling and reliable performance on road, paired with a robust structure and tough grip tread designs to tackle off-road applications. Manufactured with Bandvulc's bespoke high polymer rubber compound the tyres resist damage, provide superior grip and keep performing from quarry to road, journey after journey.

**GRIPMASTER** tyres at work, providing excellent levels of grip and performance across all on, and off-road surfaces.

**TYRES ENGINEERED &  
MANUFACTURED IN THE UK**

# WHY **BANDVULC?**

## **INNOVATION** **INDUSTRY LEADING PROCESSES, DESIGN AND TECHNOLOGY**

We continually invest in the future of our purpose-built LifeCycle plant by taking full advantage of technical advances and the latest technology available throughout the retreading operation. Our pioneering approach allows us to combine hot and cold retreading under one roof in a closed production cycle where synergies from retreading and rubber recycling are used enabling us to set new standards in sustainability.

## **EXPERTISE** **50 YEARS OF RESEARCH, INVESTMENT AND TEAMWORK**

People are the driving force behind our success. Across the business we have experts in rubber technology, research and development, robotics and engineering allowing us to design a unique range of tyres for specific applications, right down to the bespoke rubber compounds produced in-house in our laboratory.

Our extensive knowledge of UK roads and ongoing investment into in-house rubber technology enables us to engineer products and compounds to suit a wide variety of uses and applications.

## **QUALITY** **SETTING THE RETREAD STANDARD**

From initial design and development work to casing recycling and tread application, we implement critical quality control measures across our business that ensure we operate in the most efficient way and continually improve in all respects to fulfil our standards and achieve the best retread tyre.

## **SUSTAINABILITY** **A GREENER JOURNEY AND EXTENDED LIFE CYCLES**

Since the beginning we have been committed to the care of the environment, prevention of pollution and our responsibility to ensure that our retreading operation is as efficient as possible with minimum impact to the environment. This not only includes the manufacturing processes in place and our zero-to- landfill policy but also through our diverse product offering and the quality retreads we provide for customers. Sustainability has, and always will be at the heart of our operations, across the board.

Bandvulc manufacture a tyre every 3 minutes, each one quality assured and with bespoke features designed to perform for our customers whatever the challenge.
